

IPAF 3A & 3B

	Course Duration:	One Day - 8.00am - 4.00pm
	Maximum Instructor/Delegate Ratio:	1:4
	Awarding Body:	IPAF
	Assessment:	Multiple choice paper and practical skills assessment. Digital theory available

Overview

This course aims to instruct an operator to prepare and safely operate various types of Mobile Elevating Work Platforms (MEWPs) including scissor lifts, vertical personnel lifts and booms on wheels.

Award

Each successful delegate will be issued a digital certificate via the IPAF ePAL app & digital PAL card. A PDF version will also be issued. These are valid for five years.

Who should attend?

This course is aimed at operators who are, or will be, responsible for using Mobile Vertical and Mobile Boom type MEWPs.

Course Syllabus:

- Introduction to IPAF and MEWPs
- Pre-theory test
- Legislation, regulations, standards and best practice
- MEWP categories explained
- Structural parts identified
- Pre-use inspection / familiarisation
- Safe operating methods and hazards
- Post-theory test
- Practical training
- Practical assessment
